BASS YARD

Bass Music Meditation

Rocked by the rumbling basslines of the Garance Reggae Festival in Bagnols-sur-Cèze, where he was born, a love for this music naturally came to him. Since then, he has been cultivating his own style, from Dub to the very borders of Bass Music, under the direct influence of the UK scene.

His first album, “Do Not Go Gentle”, is released on September 18th, 2026. The result of five years of work, marked by encounters and collaborations with extremely talented artists, Do Not Go Gentle is an ode to the night, nature, history and travel.
