

ECHOSMOS

LIVE Psychill / Chillgressive

Biographie

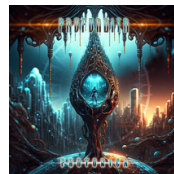

Echosmos is the joint project of Alex and Valentin. Brought together by the passion for psychedelic music, it is quite natural that they decided to form a Psybient & Chillgressive project together.

Inspired by the mysteries of the universe, the duo has shaped its own sound, a harmonious echo in connection with space and in osmosis with time, creating an immersive sound experience that invites the listener to surrender to contemplation and mind wanders, while keeping the body awake.

For those in search of inner peace or explorers of new sound horizons, Echosmos opens the doors of its mesmerizing universe.

Echo, Cosmos, Osmose...
