Biographie

Luna Canidae *represents the natural evolution of the Foxhead project, expanding the musical spectrum from psybient to chillgressive and exploring new horizons in psychedelic music. Inspired by the beauty of starry nights and the mystical forces of nature, gentleness and power come together in a subtle balance. Filled with crystalline melodies and rich sonic textures, Luna Canidae invites you on an inner journey to distant and wondrous lands, unveiling dreamlike, ethereal, and profound soundscapes. From contemplation to ecstasy, it explores a palette of emotions and feelings, creating a true epic of sound, where each track is a stage in the journey. Opening the door to infinity, consciousness, and mystery.*
