BIOGRAPHY

"Free-spirited creativity, music that travels and weaves bonds beyond borders"

Active on the psytrance scene for 20 years, Rise is renowned for her progressive sets, both original and dynamic, which have delighted a wide audience. Travelling, meeting people, celebrating life and building bridges through her passion have taken her to the four corners of the world.

At festivals: Fusion (DE), Hadra (FR), Own Spirit (ES), Atlas Connection (IT), Forest Soul (PT), Transahara in Morocco, Shivamoon in Thailand, Hinotori in Japan, Hilltop in Goa, Gaïan Dream in South Africa... or in temples of electronic music such as Shiva Valley and Samsara in Asia, Le Bikini, Le Batofar, L'Usine or Ruigoord in Europe... to name but a few.

Her music knows no borders, her creativity no limits. Ever inspired, in 2020 she launched a second project, in techno, with incisive notes, both dark and luminous, undeniably groovy and magnetic.
