TETRA HYDRO

BIOGRAPHY

Tetra Hydro is a musical project conceived in 2021 by Argentine artist *Tomás Brizuela,* currently based in Spain. The project stems from Tomás's need to explore new musical directions.

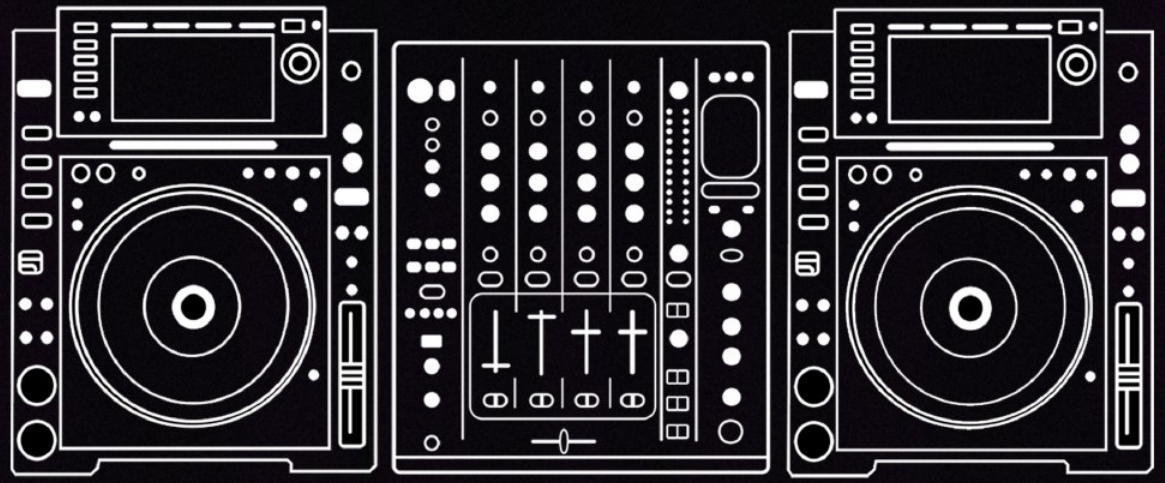

Tetra Hydro's style is defined by a ***unique and immersive*** sound, a fusion of solid, groove-filled rhythms with a psychedelic sound design that invites immersion. Tomás's ability to create complex and stimulating soundscapes is the result of a lifetime dedicated to music.
From an early age, he was immersed in the world of music. He was part of various rock bands as a guitarist, nurturing his passion and musical skills, and later delved into electronic production with his previous project: To.mi Hash.

Tetra Hydro has presented his project on various renowned European stages, including Berlin, Ibiza, Barcelona, and London. He has shared the stage with prominent artists such as André Gazola, Portilla, Lampe, Roman Adam, and Jouska, among others, consolidating his presence in the electronic music scene.

His music has found a home on prestigious psytech labels such as Vision Serpent, Soupherb, Subtrail, Soliq among others and he is part of Alpaka muzik as a resident artist.
